WHO SENT YOUR VALENTINE?

'Tis Cupid come with loving art To honor, worship and implore; And lest unwelcomed he depart, With all his wise and mystic love, Awake, awake, O gracious heart! There's some one knocking at the

Few girls can complain about re-ceiving a valentine this year, for the whole country over, in hamlet, town and even in cities, men made such a rush for them that the entire supply, we are told, lasted scarcely a week. Many of the girls who had intended buying valentines to send to a fa-vored one found themselves cleverly outwitted concerning their intended joke to take advantage of leap year Mrs. Whiffen, Oldest by valentine

Thus the tables were unexpectedly turned upon the ladies. If a girl knows who sent her valentine she loses the fun of guessing. She usually knows how many admirers she has, but to decide upon the right one is no easy matte. It is the girl, however, who has no known admirer who is seventy-second year today. Mrs. Whif-worked up to the highest pitch of cu-fen is not like most women, who seek tine breathing the tender sentiment actress on the American stage, and that struck a chord in her heart.

very apt to giggle and blush the first vest her earnings from the engagement time she meets the suspected one. She in a chicken farm, to which she inas Greek to him. If she covertly mentions the word "valentine," and he has received a comic one, quite as like as not he will imagine her to be the sender. This may account for the sender of the sender Avenue Temple observed By Many not he will imagine her to be the sender. This may account for the suddenness with which he cuts short their conversation and his avoidance of her in the future.

Thus it is so many good people are commemorated last night by about 200 ing the senders of uncomplimentary members and friends who gathered in valentines. It does not do to suspect

Relief Funds.

When news finally comes-perhaps that his father is allve with his sister in the little village of Zamoste in southern Poland, but that she has consumption contracted from peatiwithout money to help her, or perhaps that his brother is a prisoner in an Austrian camp, or that his mother had died because she has no money for food-then the applicant is sent for and it is someone's task to tell him what word has been received.

The news is almost always tragic That intense family feeling so characteristic of the Jews becomes more than ever clear as the heart-broken father or mother or son or daughter turns away from the desk and returns in a day or two asking how \$50 or \$75 can be safely sent abroad.

These small amounts of money for elief are supplemented by money raised in energetic campaigns carried on throughout this country to send to the six million Jews reported starving in the warring countries: \$3,750,000 has up to date been collected and sent to Jews in Russia, Galicia, Poland and Palestine, by the Jewish relief committee. Their first mass meeting in Carnegle Hall, New York city, brought in \$800,000 in pledges and actual conthe United States have raised the

amount to where it now stands. Under the Joint Committee on Jewish Relief, of which Felix Warbury is chairman, are two other commitone the Central Committee co-operates with the trade unions and Mr. Hershfield having organized his solicits from business people. The woman's auxiliary of this committee,

ound to make improvement.

rehabilitation. men seemed to be taking the necessary precautions to produce milk of low bacterial count. their utensils as washed and scald-It has been proved that the utensils are an important source of Bacteriology Departments at the bacteria unless they are thoroughly connections. Agricultural College, scalded or sterilized. There is some question as to the efficiency of the scalding process as it is carried on in many places. The water must be so hot the hand can not be held in it, and kept hot until all the utensils and bottles are cleaned. They should then be inverted in some protected place where they will not become contaminated. The average bacteria score of all who have exhibited to date and have reported the use of a sterilizer, is 31.8; for those reportng washing and scalding, 26.3 and for those reporting washing only These relative scores are, of course, not due entirely to manner of cleaning utensils, but they indicate that unsterilized utensils are a source

of bacterial contamination. The data tabulated from the replies on the question blanks show in general that there must be a co-ordination of all the factors conducive to the production of high quality milk, coupled with good sound "cow sense" on the part of the herdsman, to product milk that will score 90 or above. The three samples of butter which scored off heavily, showed poor workmanship, the tendency being to a mottled and gritty product. Suggestions were made to the makers, which are bound to bring about improvement if they are followed. accomplish wonderful improvement in the art of butter making, by following out established methods, and these butter scorings are even more valuable to the butter maker than the milk scoring to the milk man.

The next scoring will be held in May, In due season, entry and question blanks will be sept to all who have participated Defore, and to all members of the Dairymen's asso-Others should address Superintendent Milk and Butter Scoring Connecticut, for informa-
